

180HP Farm Tractor Specifications and Quotation List

The Tractor BN-X1804, 180HP, 4WD is developed on the basis of the Italian wheeled tractor chassis technology, adopting the British technology-based 6-cylinder turbocharged engine, which is featured with specific low fuel consumption and better power economic efficiency. The tractor has multiple gears, a wide speed scope, and a large capacity of fuel tank, ensuring long-time operations with a single fueling. Besides, it is flexible in steering and easy to operate.

Main Features:

- ▲ 4 in1 combined light is used in the front, and modular lights can provide good lighting at night;
- ▲ It has the characteristics of high transmission efficiency, low tremble, high traction, high adaptability and easy start;
- ▲ Hydraulic output interface can make direct connection with the dump trailer, mower, backhoe, plough, etc;
- ▲ This series of tractor can have many different configurations according to customer's demands.
