

## Hydraulic Oil Press

Type	QYZ-410	QYZ---260	QYZ-500
Working Pressure	45MPa	55MPa	40MPa
Pushing Force of Working	120T	190t	300t
Inner Diameter of Pressing Barrel	410mm	230mm	500mm
Working Stroke of Piston	500mm	300mm	700mm
Capacity of Pressing Barrel	80kg	8kg	200kg
Average Preformance	80kg/h	45kg/h	200kg/h
Main Motor	1.5kw	1.5kw	4kw

Motor of Heating	4kw	2kw	4kw
Oil Cylinder of Pre--pressing	10MPa	/	10MPa
Weight	1500kg	850kg	2800kg

## QYZ 系列

1. It is this is a kind of oil press with small capacity
2. Which can press sesame, olive, cocoa beans, walnuts, almonds, and other high oil crops.
3. This peanut seeds oil press is very suitable for family using and small scale oil factories.
4. It is can press 7-8 kg per time (12 minutes), that is to say you can process about 50kg/h .
5. After pressed, the oil is very pure with good smell, can be edible for people directly.
6. It is durable using, which is the least to change the wearing parts.
7. It is made of stainless steel , so the oil can reach the healthy standard .
8. Which is good for people's health.
